What the build includes.

A site you can edit

I'll build seven pages in your own WordPress theme. You can change the words, publish kitten news and add photos to the gallery yourself.

Enquiries and visibility

I'll test delivery to your inbox, protect against junk and unwanted sign-ins, add a Google map, prepare your pages for search and redirect your old links.

Photos and family stories

I'll refine your logo and browser icon, prepare the photographs and give your cats and family letters a place of their own.

Social tools and handover

Five reusable social templates and Facebook artwork. I'll move the agreed content, make one round of revisions and give you a one-hour handover.

First year included. Annual hosting from year two.

Billed annually

Hosting charge	Monthly equivalent	Annual cost
Your current hosting (estimate)	€23.94 (about £20)	€287.22 (about £240)
Your personal renewal price today	**€11.97 (about £10)**	**€143.61 (about £120)**
Your saving (about half)	€11.97 (about £10)	€143.61 (about £120)

I'll handle Render hosting, photo storage, WordPress updates, a secure connection and separate backups. You'll update the site content. Your build and renewal prices include any applicable VAT.

If my supplier raises its charges, I'll agree any increase with you before renewal. Domain renewal and any existing mailbox are separate. I'll agree any further work with you in advance.

Pound values are approximate. I used the European Central Bank reference rate on 13 November 2026 (€1 = £0.83559). Exchange rates may change. Monthly equivalents are rounded.

Your next step.

Send me your thoughts on the prototype. Once you approve the design, I'll build your WordPress site and arrange the move with you. You keep ownership of your website, content and domain, and your WordPress administrator access.
